

Protect your pumps vacuum systems by implementing LACO Technologies' wide variety of quality vacuum traps. Each trap contains a insert which traps foreign particles and vapors, preventing corrosive chemicals from damaging the pump. In transparent polypropylene or stainless steel, our traps are available with a range of interchangeable inserts to meet the needs of your application.

BENEFITS

- Protect pump from vapors and particles
- Minimize oil backstreaming from oil-sealed pumps
- Minimize oil misting of rotary vane pumps
- Trap toxic or corrosive chemicals and vapors
- Easy maintenance and cleaning
- Extend pump oil life by filtration

TRANSPARENT VACUUM TRAPS

SPECIFICATIONS		
P/N	SIZE	INSERT
MV300005	4.5"	No Insert
MV300010	9.5"	No Insert
MV300100	9.5"	Copper Gauze
MV300105	4.5"	Copper Gauze
MV300200	9.5"	SS Gauze
MV300205	4.5"	SS Gauze
MV300300	9.5"	Molecular Sieve
MV300305	4.5"	Molecular Sieve
MV300400	9.5"	Sodasorb
MV300405	4.5"	Sodasorb
MV300500	9.5"	Activated Charcoal
MV300505	4.5"	Activated Charcoal
MV300600	9.5"	Activated Alumina
MV300605	4.5"	Activated Alumina
MV300610	9.5"	PolyPro 2 micron
MV300615	4.5"	PolyPro 5 micron
MV300620	9.5"	PolyPro 5 micron
MV300625	4.5"	PolyPro 5 micron
MV300630	9.5"	PolyPro 20 micron
MV300635	4.5"	PolyPro 20 micron

INSERT TYPES

- Copper Gauze
- Stainless Steel Gauze
- Molecular Sieve
- Sodasorb
- Activated Charcoal
- Activated Alumina
- PolyPro 2 micron
- PolyPro 5 micron
- PolyPro 20 micron

STAINLESS STEEL VACUUM TRAPS
